

PRESENTATION RAINBOW CONSULTRADE

Bologna - Italy

INTRODUCTION

- *Rainbow Consultrade was established on 1997 as an Engineering Company operating in the fields of Civil and Industrial International Contracting, Consulting and Trading of Machineries and Plants.*
- *Rainbow Consultrade has been operating mainly abroad and has succesfully managed a number of projects and supplies.*
- *Inside the company consolidated experiences has flown in from previos activities where the staff was involved as well since 1976.*

Know-how

Rainbow Consultrade is able to satisfy various requirements in the technical, commercial and management fields:

- Supplies of materials, machineries and plants;
- Export Commercial Consulting;
- Cost Benefit Analysis, Planning and Design for “Turn Key Project”;
- Full Contract Management (product research, purchasing, shipments);
- Installation Supervision;
- Start-up;
- Testing and Commissioning.

Fields of activity

Rainbow Consultrade, thanks to his peculiar expertise, is in position to operate with great professional skill in a number of fields:

- Aviation: Radio-Navigational Aids, ATM (Air Traffic Management), Visual Aids and AGL (Airport Ground Lights), Meteorological Equipment, Hangars and Shelters, Airport Security Systems;
- Industry: Production Machineries and Plants for a great number of electrical, electronic and mechanical components;
- Oil: particularly for the OIL Field the previous experiences of Rainbow Consultrade came in both in the aviation and industrial sectors:
 - Navigation-Aids and Meteorological Systems for airfields (airstrips) and heliports (helidecks) onshore and offshore;
 - Stainless Safety Nets for offshore helidecks;
 - Fire Fighting and Safety Systems and Plants.

Branches, Commercial Offices and Representatives abroad

Rainbow Consultrade, since they are operating mainly abroad, is used to establish, in those countries where there are business expectations, branches, commercial offices or representatives: said structures are sized according to the entity of the contracts already achieved or, as an alternative, on prevision of the businesses which should be obtained thanks to these specific marketing activities.

In Libia, in Equatorial Guinea, in Senegal and... in the world!

- Rainbow Consultrade is present in Libia and, thanks to the contacts achieved with several important Clients and also on the base of a number of projects already accomplished, we are in position to continue our commercial penetration policy in highly qualified business areas.
- Rainbow Guinea SA is our "bridgehead" in Equatorial Guinea where we have recently acquired and are doing an important job at the new airport of Corisco Island.
- We have recently launched promotional activities and participation in bidding in Senegal, where major international organizations are operating in the airspace and airports of many countries in West Africa; in Senegal, Dakar, we employ a qualified and well-introduced representative in the aeronautics industry.
- Other interesting initiatives have been undertaken in other countries to confirm the "international vocation" of Rainbow Consultrade.
